Patels are generally the Registrars of vital statistics (Births & deaths) in the rural parts of the State but to have the same arrangement in an urban area like Kunigal, the Tamil may not work well at all the part is that the registration should be an accurate one as otherwise its importance would be lost and no useful purpose would be served thereby In this view it seems best to arrange for the work being done by an official who is an employee of the City instead of the Patel who will not ordinarily be under the control of the Mthly We have also
